TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Gilsum, in the County of Cheshire, in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at town hall, in said Gilsum, on Tuesday, the eleventh day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

ART. 1. To choose all necessary town officers for the year ensuing.

ART. 2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same.

ART. 3. To see if the town will appoint a committee to look after the observance of Memorial Day and appropriate money for same.

ART. 4. To see if the town will vote to instruct the collector to collect all taxes and pay into town treasury on or before Jan. 31, 1925.

ART. 5. To see if the town will take any action in regard to town officers' salaries.

ART. 6. To see what action the town will take in regard to a road grader and appropriate money for same.

ART. 7. To see if the town will take any action in regard to observing of Old Home Week and appropriate money for same.

ART. 8. To see if the town will vote to authorize the selectmen to borrow money.

ART. 9. To see if the town will take any action in regard to state aid construction and trunk line maintenance road and appropriate money for same.

ART. 10. To see what action the town will take in regard to street lights and appropriate money for same.

ART. 11. To see if the town will vote to accept the reports of town officers.

ART. 12. To see if the town will take any action in regard to footlights for town hall stage.

ART. 13. To see if the town will vote to do any work on Alstead road in conjunction with the Golding-Keene Co.

ART. 14. To see if the town will vote to build a cupboard in selectmen's office and appropriate money for same.

To bring in your votes for the election of delegates-at-large, alternate delegates-at-large, district delegates, alternate district delegates to the national conventions of the Democratic and Republican parties to be held for the purpose of nominating party candidates for president and vice president of the United States.

Given under our hands and seal, this twenty-third day of February, in the year of our Lord nineteen hundred and twenty-four.

P. M. WRIGHT,
W. H. ADAMS,

Selectmen of Gilsum

Supplies for chemical extinguishers,	86 78	
	<hr/>	\$132 78

JOHN PLATZNER,
ARCHIE BECKWITH,
Firewards

LIBRARIAN'S REPORT

There has been no meeting of the trustees this year, owing to the fact that the president of the trustees is in Keene most of the time. The town has purchased a few books, subscribes for four different magazines, including the National Geographic, which is a most instructive one. Mrs. W. W. Woods has donated many other magazines.

JAMES DAVIS,
Auditors

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Citizens and School Board of Gilsum:

It is with pleasure that I herein submit my first annual report as superintendent of schools.

During the short period of six months' observation and direction of your schools, we have aimed to follow the state course of study as far as conditions and a limited supply of equipment will permit.

As far as possible, we have eliminated educational fallacies and put emphasis on the old-fashioned word, "work," directing our efforts to the fundamentals, viz.: reading, writing and arithmetic, the use of good English, both oral and written, in composition and conversation.

The teachers have been devoted to their work and conscientious in its execution.

There is no escape from the fact that public schools are expensive and that their cost is increasing.

The increase in cost is due, not only to the higher salaries needed to secure good teachers, higher cost of repairs, the doubling of charges for heat, extension of required transportation routes, continued high prices of books and supplies, but also to the fact that the requirements which schools have to meet have broadened greatly throughout the entire country and physical conditions considered satisfactory forty years ago are no longer tolerated.

Our great problem is to maintain our schools in creditable condition and at the same time keep within the limits of our appropriations.

We must realize that public school education is the bulwark of our free institutions, that in the rising generation of boys and girls lie the latent powers of our republic, that the way the twig is bent the tree is sure to grow.

Therefore, realizing that the boys and girls of today are to be the men and women of tomorrow, it behooves us to act with feverish solicitude in the interests of the welfare of our children. It is an essential duty imposed upon us to vitalize their education with a thorough preparation in the fundamentals of mental, moral, and religious life.

The boys and girls of Gilsum are worthy of all the town can give them in the way of educational opportunities. Every citizen, whether he has children or not, should be interested in the education of the boys and girls, for in twenty years the affairs of the town will be in their hands. Too many pupils make the mistake of leaving school as soon as the law permits. We should encourage by every means possible such pupils to continue longer in school. Whether they are to become workers in the mill, store, or on the farm, they will be better workers if they go far enough to be able to study and understand a little of mill mechanics or to take a reading course for information along the line of their chosen vocation of life. The increase in thinking power through a few additional years of school will make them more capable workers and more intelligent citizens.

SCHOOL WORK

Houghton's system of writing is used and our aim is to secure neatness, legibility and a fair amount of speed.

In spelling, your teachers are trying nearly all avenues of approach in order to get the word taught into the system of the child, viz., the ear, eye, muscles of throat, arm and hand.

In reading, the first three years are devoted largely to the mechanics of reading and a taste and desire for good reading.

After the third grade, attention is turned more particularly to four points, viz.: (1) the getting the thought from the printed page; (2) silent reading under the guidance of the teacher—the getting of thought for ourselves; (3) oral reading—the giving of the thought to another which implies clear articulation and enunciation and a proper expression of thought; (4) the development of love for good literature. In fact, teachers who have insisted that the pupils give back the thought in their own words, even from the first grade, have developed the better readers under (1) and (2), but oral reading or (3) seems to be our weakest situation. I would urge teachers to put stress on this condition even to the degree that it might border on elocution.

In number work, or arithmetic, your teachers are following well-known pedagogical laws, proceeding from the concrete to the abstract, from the known to the unknown, from the particular to the general, from the problem to the rule.

As far as possible, we keep the work practical and confined to principles that enter into the needs of the ordinary citizen. It has been proved by examinations all over our state that our pupils are stronger in operations and perhaps accuracy in the performance of those operations than in problems that demand close reasoning and mental arithmetic.

I would recommend to the teachers that they make a more frequent use of the inquisitive “why” and give a few daily mental gymnastics in the old-fashioned mental arithmetic.

In geography, history, physiology and other subjects of similar nature, teachers who are using the topical and project methods under guidance of the five steps in teach-

ing given in chapter seventeen of the State Program of Studies, have obtained the better results.

In English, much time is given to the development of proper speaking and writing. Also emphasis is placed on technical grammar.

Technical grammar is coming to its old time importance, I believe, and will be gladly welcomed, especially by the English teachers in our high schools of the state.

We have strengthened the English in our grammar grades by the introduction of Sandwick's Junior High School English. Also more time has been devoted to history.

In addition to the subjects mentioned, good work has been done in drawing and nature study.

TEACHERS FOR THE PRESENT YEAR

At the beginning of the present year, a new corps of teachers took up the work of your schools, viz.: Mrs. Etta B. Rowell, a teacher of extended experience, the grammar grades; Miss Mildred Pitcher, of Marlboro, the primary grades; and Miss Alice E. Richards, of Harrisville, the West school.

All have co-operated heartily with the superintendent and school board in behalf of the highest welfare of the schools. All are working along approved lines and are getting good results.

In conclusion, I wish to express my thanks to the School Board, teachers and citizens for their hearty co-operation.

Respectfully submitted,

FREDERICK T. JOHNSON,

Superintendent of Schools.

Marlboro, N. H., Feb. 15, 1924.
